About Us

Where Every Party Has a Killer Plot

Planning a murder mystery party should be thrilling—not overwhelming. That's why we built [Your Site Name], a planning hub designed to help you create unforgettable murder mystery parties with confidence, creativity, and just the right amount of dramatic flair.

How It Works

1. Browse or pick a plotline for inspiration
2. Select or customize characters to fit your guest list
3. Use the outline builder to shape the mystery to your party
4. Host an unforgettable night full of twists, laughs, and dramatic accusations

Our interactive outline tool helps you organize everything in one place:

- The victim and the culprit
- Key clues and reveals
- Character objectives
- Event flow from start to final accusation

You stay in control—we just help you keep the story straight.
